

## Stories, Rhymes, and Good Times!

### Volume 18, 2008-2009

### Writing in Kindergarten

**By: Mrs. Graham**

As soon as kindergarteners are able to combine phonograms to create words, the excitement about spelling and writing builds. The children begin writing names, lists, titles for pictures and sentences. During the third quarter we begin more formal instruction about writing stories. Children create "real" or "make-believe" stories about a given topic. Sometimes this writing period accompanies a drawing lesson that provides an illustration for the story. The children get their ideas down on paper and then we conference with each child about his/her story and discuss some of the mechanics like capitalization and punctuation. The children are very proud of their finished products and enjoy reading their stories to classmates and having their work displayed.

### My Mom

**By: Cairan Zumar**

I love my mom because she snuggles with me at night. She loves me and she jumps on the bed with me.

### Mom

**By: Carson Maschmeier**

I love my mom because she kisses me. She buys groceries. She snuggles with me.
