

Complete the enclosed enrollment form and return it to the school office.

Review the order form.

The dollar amount beside the retailer is the amount of the gift certificate.

You can order more than one but each one will be in the specified amount.

The % is the amount of the total credit. Half of the % goes to the school and half goes toward your tuition.

For example,

Burdines \$50 at 12% = \$6.00

Chili's \$20 at 11% = \$2.20

\$4.10 goes to the school and \$4.10 goes toward your tuition.

Complete the order form and return it to school with your check attached. Your gift certificates will be returned in an envelope with another order form.

The next time you are planning a home project, get the gift certificates from Home Depot or Lowe's and **get tuition credit**.

When you are buying those Christmas gift certificates, order them through school and **get tuition credit**.

Buy certificates to your favorite restaurants and stores and **get tuition credit**.

You are going to buy from these stores anyway, so with a little planning you can **get tuition credit** with your purchases!
